

ShaVrill's Message for 1999

Greetings Oh Bright Ones!

Wheels of time, both natural and constructed, turn in their own cycles. As humans, you use these in your calendars, your celebrations and your seasons, in your astrology and numerologies. Meanwhile, the Sun and the Moon and the planets and the galaxy and the universes in Their Turn, also have been and are becoming.

As you travel The Shift through from the 'I AM' to the 'WE ARE', know that you choose. The threefold human (do/think/feel) being attracts and repulses in its magnetic dance. You **are** the Pendulum. Now you know that you are indeed One Human Species of limitless diversity. Now you know you are a global world, a Solar Village, nestled in a Spiral galaxy that draws you evermore into wonder and curiosity. Now you know you are/becoming multi-dimensional beings. What will you *choose*?

We have spoken with you often, about Freedom, Innocence, Knowledge, Wisdom, Consciousness, Creativity, Honesty and Love. You have shared with us your pain, your suffering, your loneliness, your confusion, your anger, and your fear. We have laughed with you and played with you and studied with you and discovered with you. We find this a Blessed experience indeed! You have taught us a sense of humour. You have taught us about 'Whoops' and 'Ouch'. We have only wanted you to know yourselves.

In choosing the [Freedom to Become Who You Truly Are](#), you immediately begin to shed thoughts and reactions and habitual patterns and insecurities and doubts and fears. You shake off inhibitions and limitations. You feel naked and lighter and strange. You tremble and you giggle and you blush.

Clothe and fill the ensuing emptiness with the Holy Shekinah, the Spirit that moves through the spaces in between matter and what matters to you. Know Your Self and help yourself at the Banquet that is LIFE! There's plenty for everyone.

Akiya Akiya L'ahem.
